
Quantitative Research Methods

Academic course

Level of course unit: Master

ECTS: 5

Language of Instruction: English

Course Dates: tbd

Course will take place on site at the MCI in Innsbruck

Learning Outcomes:

Students know basic concepts of descriptive statistics, such as how to use percentages, means, median values, quartiles, or standard deviations to describe samples. They also understand basic inferential concepts, such as confidence intervals and correlations.

Course Contents:

“Basic Quantitative Methods” will be an introduction to basic statistics and descriptive statistics. Students will learn basic commands working with a statistics program (e.g., SPSS, STATA, R). Depending on students’ skill level a short introduction into inferential statistics (e.g., regression analysis) is possible.

Contact Person for registration:

internationalcentre@ulyssseus.eu

Application Deadline: 15.10.2022

Available Spots: 3

Fee: EUR 20, 70 (Austrian Students’ Union Fee)
