Level of course unit: Bachelor/Master/PhD

ECTS: none

Language of Instruction: English

Course Dates: 27.09. – 29.09.2022

Course will take place on site at the MCI in Innsbruck

About the conference:

MCI | The Entrepreneurial School® is pleased to invite you to the 9th Responsible Management Education Research (RMER) Conference, which will take place from 27 – 29 September 2022 and is organized in collaboration with the PRME Chapter DACH, the PRME Anti-Poverty Working Group, and the University of Applied Sciences of the Grisons (Switzerland).

Join us in beautiful Innsbruck, the heart of the Austrian Alps, for this annual gathering of the global PRME Community and beyond to share and discuss new ideas, approaches, theories, experiences and practical applications to responsible leadership education and the advancement of the Sustainable Development Goals (SDGs).

Overview:

Conference Topic:

This year, the conference is centered around the topic “Societal Impact through Entrepreneurship & Innovation: Responsible Leadership Education for the Changemakers of tomorrow.” We invite you to jointly explore the role of entrepreneurship and innovation in preparing students for a fast-changing, challenging world that requires innovative and creative thinking, new mindsets and approaches, and brave and responsible leadership.

The necessary transformation of society and business towards more sustainable trajectories calls for leaders and professionals who not only act ethically and responsibly, but who also have the courage, values, competences, knowledge, and entrepreneurial spirit to actively co-create innovative responses to the most pressing social and environmental issues of our time. They will need to understand the challenges and create solutions, while also identifying new opportunities and sharing best practices in developing entrepreneurship and innovation capabilities for achieving the 2030 Agenda for Sustainable Development

Conference Format

The conference will be a 3-day event, including an exciting program with diverse formats such as

- prominent keynote speakers
- interactive panels
- roundtable discussions
- plenary sessions
- parallel paper and poster sessions around the key topics
- and various open engagement sessions.

For the first time this year, we are also planning a series of conference workshops with a focus on innovative teaching methods for RME, targeting practitioners, educators, and students. The Responsible Management Research Conferences are by tradition open for co-design by PRME Working Groups, PRME Regional Chapters, PRME Champion Groups, other international associations and actors operating in the landscape of responsible management education, Global Compact Local Networks and UN local offices, as well as from the research and educational community in general, and the respective stakeholders of all these groups.
