

Applied AI in Business and Education: Research, Innovation, and Responsibility

Ulysseus R&I Conference 2026 | 06 October 2026
Haaga-Helia University of Applied Sciences, Finland

Call for Abstracts

Participation and Application

On 06 October 2026 joint us for a R&I conference to explore current trends in the Applied AI in Business and Education: Research, Innovation, and Responsibility. Artificial Intelligence is rapidly reshaping both business practices and educational systems, from decision-making and process automation to teaching, learning, and assessment. The conference focuses on research-based, practice-oriented AI applications that create value in business and higher education while addressing sustainable, social, and organizational implications

Researchers, innovators, start-ups, students and regional stakeholders will exchange ideas, showcase results and forge new partnerships across three thematic tracks:

Applied AI in Business:

Use cases, innovation processes, and organizational change

AI in Education:

Teaching (with) AI, learning analytics, assessment, and faculty development

Sustainability, Responsibility, and Trust:

Bias, transparency, and (societal) implications

Your Contribution

Your contribution is more than welcome in any of the following form:

oral presentation in any of the parallel or technical sessions.

The presentations will be conducted in physical format, in the extent of 15 minutes with following 5 minutes for discussion.

or **poster presentation** in a dedicated poster session.

For the poster presentation is required to prepare a poster followed by instruction with 5 minutes pitch presentation.

How to Apply

If you wish to participate with your presentation, please register your abstract using Conference Registration Page:

Call for Abstract opening:
18 May 2026

Call for Abstract closing:
15 June 2026

Notification deadline:
15 July 2026

If you have suggestions for potential researchers, startups or innovators who might be relevant to our conference, or if you are personally involved in these areas and are interested in participating in our tracks with your presentation, please reach out to us.
